Description

This contemporary luxury villa sits on an elevated position in Sotogrande Alto and has beautiful sea views .It has open plan design on the first floor, including sliding doors that allow for the living area to be connected to the outdoor living area. From the kitchen, that you can design yourself, you can enjoy stunning views of the trees that surround the property. On the upper floor, we find meticulously constructed walkways allowing for the property to be flooded with plenty of natural light, and lots of space that allows the possibility of installing an elevator as needed. Each of the four bedrooms on the upper floor follow a beautiful open plan design enabling plenty of natural light to fill both the bedrooms and bathrooms, and provide stunning views of everything that surrounds them. This is especially true concerning the master bedroom, which provides 180 degree views. The bathrooms use bamboo countertops which are sturdy, friendly to the environment and at the same time fit perfectly with the natural flow of the property. But the botanic garden is just a taster of the exterior areas that this property has to offer, the terrace offers amazing views whilst still allowing the combination of both nature and modern design. There is a space underneath the terrace that can be converted into an area of the owner’s liking – whether that be a gym, lounge area or children’s play area for the little ones. Located next to the terrace is the wonderful infinity pool
